AJUNTAMENT DE CALVIÀ
MALLORCA

www.calvia.com

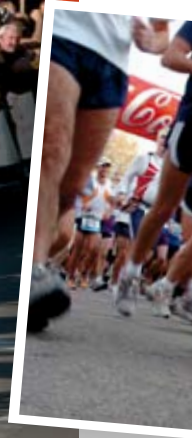

Welcome

In Calvià we strongly believe in sport as a catalyst for integration and a means of transmitting human values and the culture of well-being and health, without ignoring, of course, its strategic role in promoting tourism.

As such, we are continuously striving to ensure that our region becomes an international point of reference for sport and for the organisation of large events.

Calvià offers its visitors a hugely rich natural and cultural heritage, with a prestigious hotel infrastructure and a wide range of leisure and fun activities. From now on we want sport to be a significant factor in this equation: functioning as a differentiating element which provides added value to all of our tourists.

Carlos Delgado Truyols
Mayor of Calvià

Calvià is sport

With a typically Mediterranean climate, where the sun shines more than 300 days a year and the average temperature reaches 14° C in winter and 27° C in summer, Calvià reunites all the enviable conditions necessary for the practice of sport throughout the entire year. For this reason, our municipality is synonymous with sport, to play and to enjoy as a spectator.

Calvià offers the visitor several magnificent municipal and private facilities to play all types of sport at any time of the year: indoor sport, outdoor sport, sport in contact with nature, etc. Furthermore, the beaches in the summer also become ideal spots for all sorts of sporting activities and the different water sports also represent a great attraction as they allow you to enjoy the calm waters of the Mediterranean or get to know its sea bed.

But not only can the visitor play their favourite sport in Calvià: they can also watch live top-level international events, such as regattas of great prestige, tennis tournaments, cycling, athletics, beach football, etc.

To sum up: Calvià offers you a full world of sport.

Sport and nature

Sport and nature go hand in hand in Calvià, where the richness and variety of landscapes offer numerous possibilities to practise sports in direct contact with the natural environment. You can get to know Calvià on foot via its 100 km of pathways and tracks, or on bicycle, though its mountains or on its roads.

The Galatzó Public Finca, to the north of the municipality in Es Capdellà, also permits you to get to know one of the most magical corners of Calvià, with the Galatzó mountain dominating the entire landscape. And for lovers of the sea, the gentle waters of the Mediterranean invite you to practise water sports or to plunge into its crystalline waters and enjoy diving or underwater fishing.

Cycling routes

- 2 h. - 6 km.** Possessió Galatzó - Ses Planes
- 4 h. 30 m. - 11 km.** Possessió Galatzó - S'Esclop

Galatzó Public Finca

The Galatzó Public Finca is located in the north of the municipality of Calvià, near Es Capdellà. It covers approximately 10% of the total of the municipality and provides the perfect setting for sports in contact with nature.

The types of sport that can be practised range from competition sport such as MTB, mountain racing, orientation or backcountry hiking to less demanding disciplines such as walking, pony trekking or archery.

Come to the Galatzó Public Finca and practise your favourite sport whilst enjoying an exceptional mountain landscape.

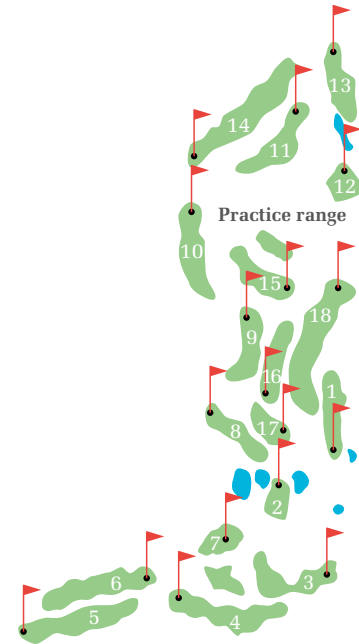

Golf

Both professional golf players and amateurs alike can find incredible opportunities for playing their sport in the golf courses in the region. The excellent climate, peacefulness of the surroundings and the high quality of services ensure that many people return year after year to play golf.

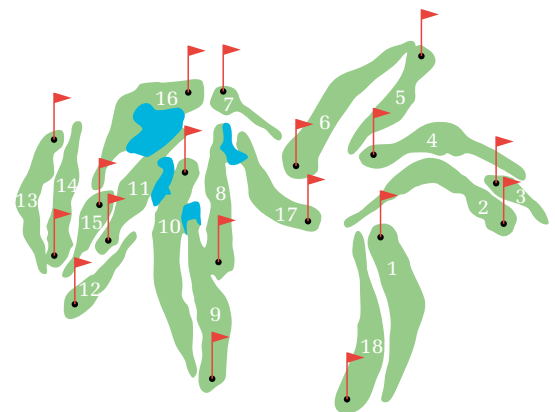

Golf Poniente

Designed in 1978 by John Harris, this Par 72 golf course is long and quite difficult, and was designed for seasoned players with long drives. The facilities are set in a tree-covered area with six lakes, all some 3 km from Palmanova (following the road from Magaluf to the El Toro housing estate).

Golf Santa Ponsa I

This Par 72 course is to be found some 18km from Palma (direction Andratx) and was designed by Folco Nardi. On various occasions it has played host to the Balearic Golf Open Championship (Open de Balears de Golf). It covers some 70 hectares and is located in a very important setting with views looking out over the sea and surrounded by olive trees, palm trees, pine trees, almond trees and lakes.

Golf Santa Ponsa II

In December, 1991, the Golf Santa Ponsa II golf course was opened, extending over 6,053m and with Par 72. The majority of holes on the course II are located within a pine wood and the rest are amongst large lakes, thus providing many interesting options for playing.

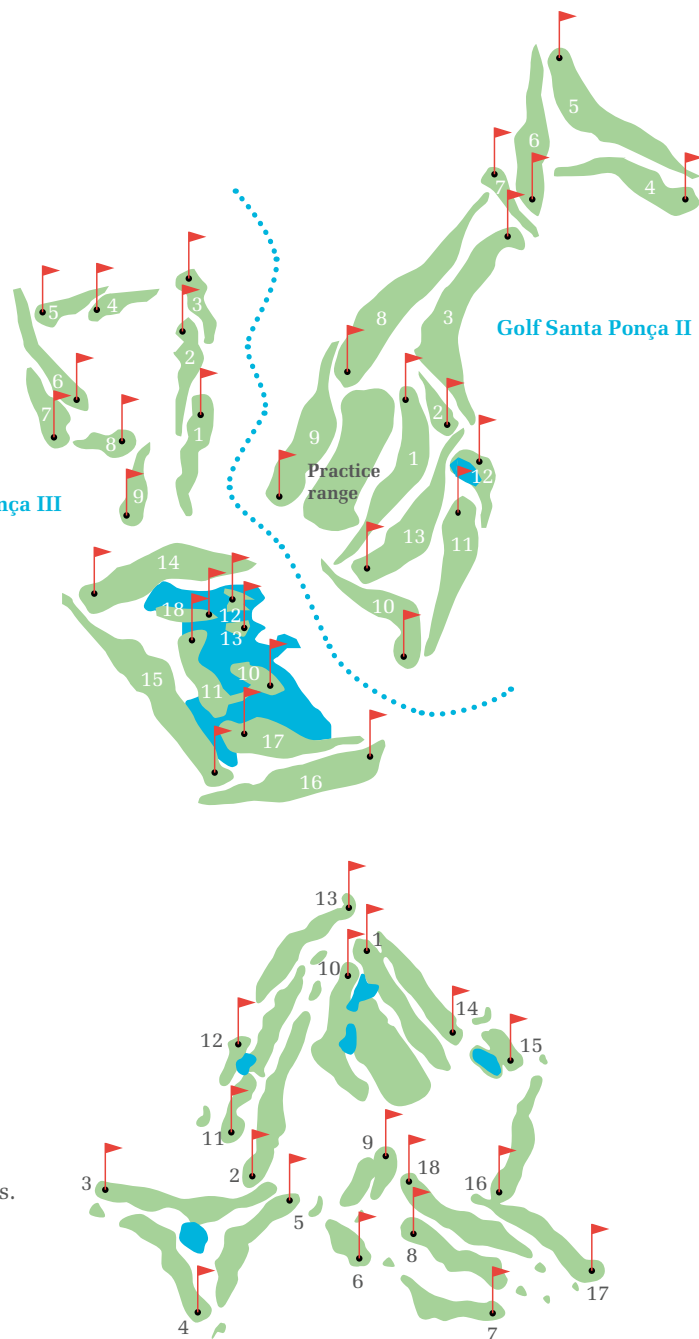

Golf Santa Ponça III

Golf Santa Ponsa III

Golf Santa Ponsa III was opened in January 1999, and extends for a distance of 1,599 m for men and 1,332 m for women. Par 30, with 3 Par 4 and 6 Par 3. It is the perfect course for beginners and players who are looking for a short game.

Golf Bendinat

This Par 70 golf course is set in a pine, almond and olive tree valley, some 70 kms from Palma (following the road leading to Illetes and Portals Nous). The golf course offers the following services (amongst others): a practice range, coaches, club and ball hire, golf carts and electrical buggies.
