ATTENTION

Asian Tiger Mosquito

You could have a source of
Asian Tiger Mosquitos
in your backyard,
in the dishes under your
flowerpots, jars, ashtrays,
fountains, buckets...

Tel: 971 13 05 77
Email: medioambiente@calvia.com

Learn how to defend yourself

IN CONTROL of Asian Tiger Mosquito, ALL ARE INVOLVED!

As a citizen, how I can help?

Keeping a close eye on drip irrigation, avoiding the formation of small pools by overwatering.

Covering wells and cisterns with mosquito nets.

Changing the water for pets every 2 or 3 days.

Adding water into drains and sewers at least weekly, to avoid standing water.

Ensuring adequate levels of chlorine in pools and ponds all year long, to prevent them from breeding there.

Removing containers which gather stagnant water (buckets, barrels, ashtrays, dishes under plantpots, fountains...), to eliminate breeding spots.

YOUR COLLABORATION WILL HELP US ALL
